

Crystal Enck,

Crystal joined our family in 2014 and we couldn't imagine not having her. She grew up in Pennsylvania on a farm and has been working with animals of all kinds for many years. Another horse lover here at the hospital, she enjoys the variety of animals we see here and loves learning something new every day. Residing in Fitzwilliam, Crystal spends her time away from the hospital caring for her horse, dogs and birds, as they are not only her passion but her past time as well. When your pet is here staying with us Crystal will do her best to keep them as happy and comfortable as possible, you can count on it!
